of some and the remoteness of others some have privileges which others cannot enjoy.

In order to remedy this inconvenience as much as may be, it is the opinion of your committee that the several School Districts should be as nearly equal in point of numbers & property as the nature of the case will admit: so that the burthen of building School houses and raising supplies for schools where enough is not provided by the Town shall bear with equal weight on each District

For the present division of Districts according to the valuation of the Residents

The 1st district contains $578
